KOSMOS

PIANO TRIO

BY

DENIS R. NASSAR BAPTISTA

(15th LAND'S END COMPOSERS COMPETITION)

(SCORE)

KOSMOS PIANO TRIO

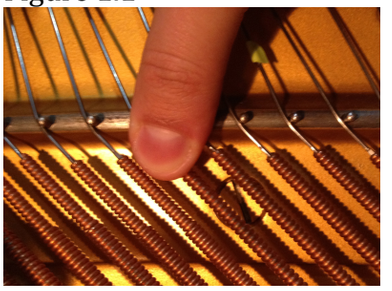
INSTRUCTIONS

PIANO

1)  => Damp the strings with one hand while the other plays on the keys. Above the section or chord that will be damped there will be a note saying either (damp 1) or (damp 2). They refer to two ways of damping the strings:

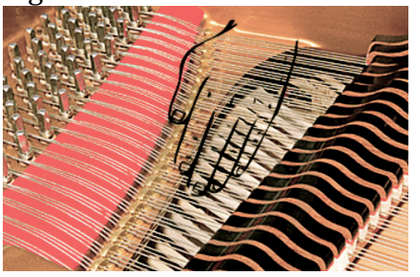
- (damp 1): damp both strings very close to the *agraffes*. Your fingers will touch the *core* and the beginning of the copper windings. It will still produce the lower sound of the string but with an "*opaque*" quality, without brightness. The "damp 1" is only used with two strings in the lower register; you could use the thumb and the index finger to damp them. The first chord of the piece uses "damp 1".

Figure 1.1



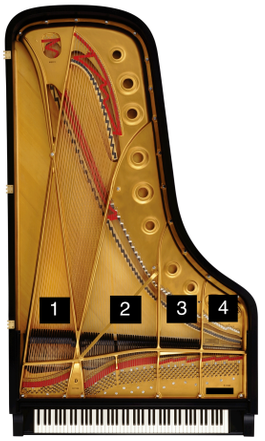
- (damp 2): damp the strings between *agraffes* and *dampers* using palm and fingers. As there isn't much space, keep hand close to the *agraffes.* You can also use only two or three fingers if there isn't enough space. It sounds more muted and percussive than "damp 1".

Figure 1.2



2)  => Glissando / Strum across the strings of different pitches with fingernail or plectrum. The range and starting pitch are an approximation. I divided the range in four parts: bass section, center section, lower treble section and upper treble section. Depending on the model of the piano it is already divided into four sections inside (figure 2.1). If that is the case, the performer can use these sections as the four divisions of the range that will be used in the piece. If the piano used in the performance contains a different number of sections inside, the pianist can feel free to find a way to strum the strings that will allow him to play the four divisions of range used in this piece.

Figure 2.1



1- Bass section
2- Center section
3- Lower treble section
4- Upper treble section

Figure 2.2 (bass section)

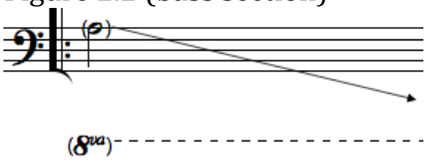


Figure 2.3 (center section)

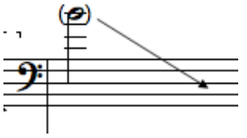

Figure 2.4 (lower treble section)

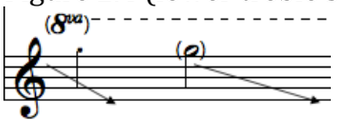

Figure 2.5 (upper treble section)

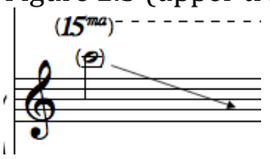
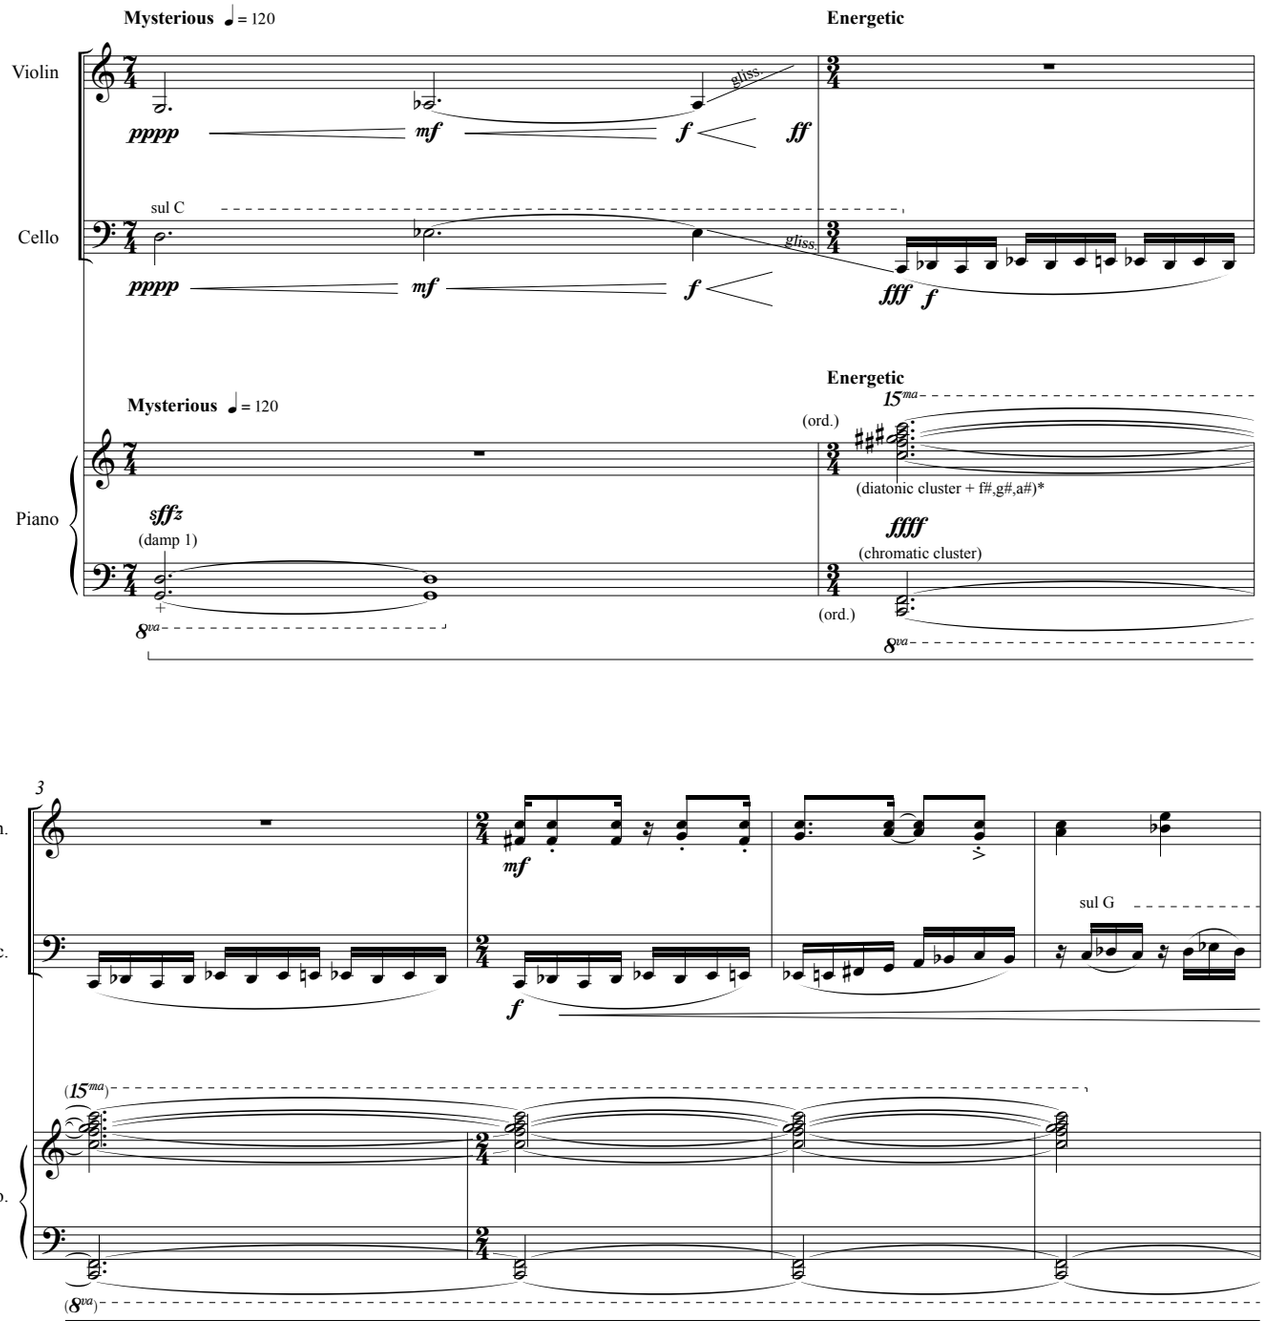


Score

KOSMOS

Denis R. Nassar Baptista
(b.1986)



*Diatonic cluster of 8 notes (c - c) played with the palm and figers 1, 5 plus the notes f#, g# and a# played with fingers 2,3,4.
